MESSAGE OF

O. MAX GARDNER
Governor of North Carolina

ACCOMPANYING THE BUDGET FOR THE BIENNIUM 1929-1931

Mr. President, Mr. Speaker, and Members of the General Assembly:

I have the honor herewith to present to your attention the budget of the state of North Carolina as required by the Executive Budget Act for the Biennium beginning July 1, 1929. I present also herewith the Budget Revenue Bill and the Budget Appropriation Bill printed and submitted as required by law. I suggest that, when you consider the Executive Budget Act at this session, you incorporate in it a requirement that the Director of the Budget and the Advisory Commission also submit to each General Assembly a Budget Machinery Bill which shall include the results of experience in the listing and collection of property taxes by counties and municipalities, with the latest governmental studies on this subject.

This Budget report is the result of the efficient and intelligent labors of the Director of the Budget and his assistants, and the Advisory Budget Commission, all of whom have labored zealously and with the devotion of true patriots, and this comprehensive budget is the result. The administration that has just ended has wrought well and the intimate detailed knowledge of the fiscal affairs of the state of North Carolina reflected in this report is the result of, not only two, but four years of the operation of the Executive Budget Act in North Carolina.

Our Budget system and this monumental report constitute an enduring monument to the labor and ability of Governor McLean and his co-laborers—an accomplishment that deserves the plaudit "well done, good and faithful servants".

The Budget system applies efficiency in fiscal matters to government. Business adopted this system from Government. Massachusetts has used the budget system since it was a colony. The old-time criticism of political cynics that proper methods could not be applied to government is not only untrue in fact, but has no historical support. The disappearance of this criticism is the inevitable result of the application of the principles underlying the budget system in government. The National Government uses this system because it is the only system that presents to the legislative and executive officers a complete reflection of the fiscal affairs of the Nation. Likewise does all business that is a success. Business that does not apply this system, in any of its varying forms, soon results in financial chaos and ruin. This system has been applied to the state of North Carolina with success. I recommend its continuation and improvement as a necessary and precedent condition of our continued growth and progress.

This, the greatest addition and asset in governmental business, is necessary for the successful fiscal operation of county and municipal government in North Carolina. The Municipal Finance Act and the 1927 County Fiscal Control Act are long steps in the right direction. The State Government is only one political unit, and included within it are 100 units called county governments, and there are, at least 410 functioning municipal governments in North Carolina. If any one of these units is in an unhealthy financial condition and does not meet its obligations when due, the credit of the entire State is adversely affected. If one unit of this system does not function properly and is unsound the entire State system is effected. Therefore, it is of vital interest to the state of North Carolina that proper fiscal machinery be provided for all counties, municipalities, and all other subdivisions. Long strides in this direction have already been made both in the enactment of laws and in the adoption and use of the fiscal plans provided in such legislation. Much remains to be done, however, in this field. Under the present taxation system all property taxes are levied and collected by counties, municipalities and subdivisions. Unless there is the maximum efficiency and the minimum expense in governmental operations in these units, the people carry unnecessary governmental burdens. Therefore, I recommend to you and the county and municipal governmental field for serious and detailed consideration.

There must be full publicity as to all public finance, including governmental operations and governmental expenditures. The tax-payers must know where, to whom, and for what, public moneys are expended. This applies to all government.

The Executive Budget Act must be carried out. I most heartily commend it. It will grow and adapt itself to all details of fiscal affairs at your hands. I shall heartily and earnestly apply it—it is a great chart for your efforts—Here's all of me in its performance.

It shall be my pleasure to labor with you for the consummation of all that will promote government in North Carolina, State, County and Municipal.

It is necessary to conserve every interest of our great government. We declared long ago that North Carolina was organized and its constitutional government ordained and established, "for the preservation of the American Union, and the existence of our civil, political and religious liberty." It was then earnestly desired that government exist for the certain security of these blessings, "and for the better government of this State." I commend this report to you, as well as our labors thereon for the accomplishment of such purposes as these.

O. MAX GARDNER,
Governor.

MESSAGE FROM THE GOVERNOR

A message is received from His Excellency Governor Gardner, which is read and referred to the Committee on Appropriations.

Mr. Winston for the Committee on Rules submits the following report which is adopted.

Mr. Speaker:

The Committee on Rules, a majority being present, having considered the volume of bills before the Committee on Roads and on Elections and finding that a clerk is necessary for the economical dispatch of business by each of said Committees, recommend that a clerk be appointed for each of them by the chairman of each Committee by and with the consent of the Speaker under the rules of the House. And the Committee, in the interest of economy, having duly considered the proposition to have House bills mimeographed instead of printed, after having submitted to it a written opinion of the Attorney General's office that the present contract for printing between the state and local printers in Raleigh, include and embrace legislative bills, and printing, have declined the proposition solely on that ground. We regret having to do so, because we are informed that by a comparison of the prices charged for such printing this session to those of the session of 1927 there appears to be an unwarranted advance in the cost thereof. We recommend that the state in the future contract for such printing, take note of this situation. We call attention to Committee Chairman that Clerks

to other Committees can serve them in salaries and fees room of the Revenue Building during business hours when they are not engaged with the Committees of which they are clerks.

Respectfully submitted.
Francis D. Winston (Signed)
Chairman Committee on Rules.
